Founded in 2019, Orbital Project Management specializes in **Infrastructure and Construction PMO Setup and Management**. Our Executive Team has over **31 years** of experience in electrical and nuclear power generation, transmission, and distribution. From operations to program management, our certified PMPs have **70+ years** of combined experience working with **8 large utilities** serving nearly **37 million customers** across the United States. Our team has over **20 years** of energy-related military experience in locations around the globe. We managed over **\$550M** in project budgets the past 5 years with on-time delivery of project goals and **< 0.5% budget variance**. Safety is our top priority. We have an **A rating from ISNetworld**, and our **BCSP-certified** Safety Manager ensures staff receive training on potential jobsite hazards of the projects they manage. As a **certified DBE-WOSB-VOSB**, we enable Primes and Agencies to meet project goals.
